## EXARK EX-6024 RFID METAL ASSET TAG

EXARK EX-6024 is a passive UHF RFID Label for Mount on Metal applications demanding long read range in small form factor with a high performance permanent adhesive

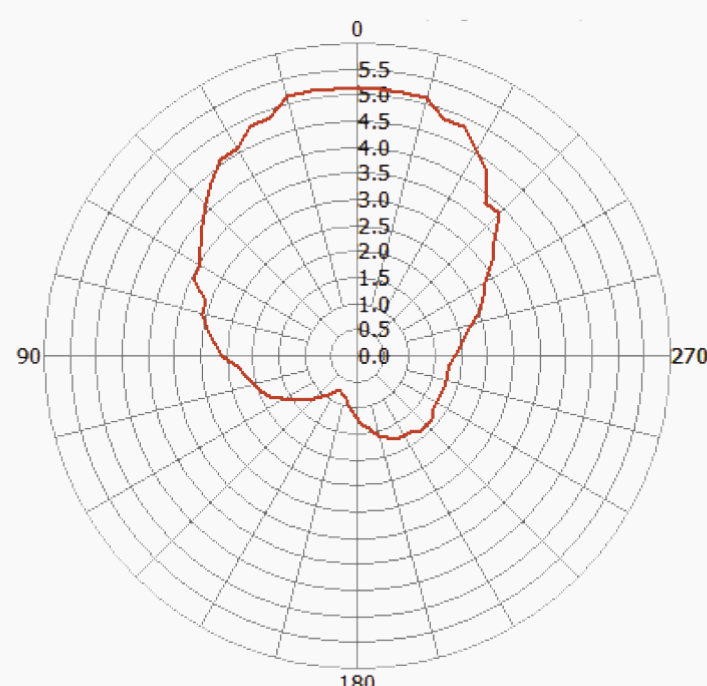

### GENERAL SPECIFICATIONS

Protocol	EPC Global Class1 Gen2 ISO 18000-6C
Operational frequency	Global 860-960MHz
IC type	NXP UCODE 8
Memory configuration	EPC96 bits extensible to 128-bits
Read range	Up to 10ft/ 3 m
Mode of Operation	Passive

### FEATURES

- High performance permanent adhesive ensures strong adhesion
- disposable layer between each RFID label ensures efficient Thermal transfer printing.
- label with all round performance that can be deployed across a wide range of industries.
- ideal for asset tracking of medical devices, IT (Information Technology) asset tracking, industrial asset tracking, tracking high value/luxury retail items, etc.

### READ RANGE GRAPH

### APPLICATIONS

- Metallic Surfaces : Indoor Asses like IT Assets, furniture's, home appliances and kitchen equipment
- Automotive: Components, spare parts and RTI's
- Healthcare: Hospital Assets & Equipment's
- Industrial: Metal assets, structural steel and RTI's
- Cosmetic with Reflective surface/Metallic coating

### MECHANICAL SPECIFICATIONS

Substrate	PET
Liner	Glassine Liner
Face material	PET
Tag dimensions	60x 24x1.2 mm

### ENVIRONMENTAL RESISTANCE

Operating Temperature	-20°C~75°C
Operating Humidity	-20°C~85°C
Storage Temperature	-20°C~75°C

### PACKING INFORMATION

Roll Size	500 Labels per Roll
Product Code	EX-6024
